

BELZONA®

5231

SG LAMINATE

For the Protection and Sealing of Concrete Floors

Belzona® 5231 is a hi-build floor coating system, incorporating non-slip aggregate. The product has been developed for the protection and heavy duty sealing of industrial/commercial concrete floor areas.

Compared with traditional floor coatings, Belzona® 5231 has outstanding abrasion resistance and is therefore effective in both pedestrian and vehicular traffic areas.

This tough, solvent-free coating system, which is available in a range of colours, provides an aesthetically pleasing semi-gloss appearance that is easily cleaned.

Belzona® 5231 has the added advantage of excellent chemical resistance and is therefore particularly effective in areas where occasional chemical spillage causes slip problems*.

- **Solvent free**
- **Non-slip characteristics**
- **Excellent abrasion resistance**
- **Minimal downtime**
- **Good chemical resistance**

OTHER PRODUCTS IN THE BELZONA® 5000 SERIES

Simplicity in Use

- Easy two pack mix.
- Simply applied by roller or brush.
- No special skills or equipment required.
- Fast curing - minimal downtime.
- Abrasion resistant

Safety in Use

- Solvent free.
- Environmentally friendly.
- Seamless monolithic finish.
- Has non-slip properties that can be further improved for wet area applications by incorporating additional aggregate*.

Chemical Resistance

- Resistant to accidental spillage from a wide range of chemicals, including:
 - Hydrocarbons
 - Alkalis
 - Petrol
 - Detergent solution
 - Mineral oils
 - Diesel
 - Lubricating oils
 - Salts
 - Brake fluid
- and many other commonly found chemicals

Colour Range

- Available in a range of colours including Red, Dark Grey, Light Grey, Mid-Green and Mid-Blue. Check with your Distributor for availability.

Typical Application Areas

- Food preparation
- Warehousing
- Showrooms
- Corridors
- Chemical storage
- Canteens
- Schools
- Offices
- Workshops
- Decks

* Other Belzona systems are available for heavy duty grip systems in wet areas.
